

JARRETT BAY 32 SEMI-CUSTOM DIESEL

Jarrett Bay's latest evolution of its 32-foot walkaround features single diesel jackshaft power. With its 425-horsepower Cummins common rail engine and Konrad outdrive, this Jackshaft version is said to offer 30 percent greater performance than inboards while being more efficient and requiring less maintenance than outboard versions. The jackshaft-equipped 32 tops out at 40 miles per hour and the 215-gallon fuel capacity provides more than 17 hours of cruising at 30 miles per hour. The jackshaft set up also affords a shallower draft with its trim capabilities and less resistance than inboards with shaft appendages. Meanwhile, the 32's proven hull and stylish Carolina

flare continue to provide a smooth, dry ride in open water.

The 32's walkaround design allows easy access to any point of the boat while fighting fish. Angling amenities include forward rod storage, freshwater washdown and transom fish box. The central helm has room to display the larger electronics necessary for successful fishing outings and has access to the cabin below. The interior offers counter space, an enclosed head to starboard and a V-berth for overnight stays. New options this year are available such as converting the transom fish box into a livewell, new seating and storage layouts, and new air conditioning and bow thruster packages.
