JARRETT BAY 53

Jarrett Bay will achieve a boatbuilding milestone when it splashes Hull No. 50 this year. The benchmark boat is a 53-footer that features Jarrett Bay's proven low-profile hull design. Weighing in at only 49,000 pounds, the 53 features a refined running-gear configuration that maximizes available power. When equipped with a set of 1,200-hp MTU 8V 2000s, this 53 will flirt with a 35-knot cruise and top out at over 40 knots.

The 53 will feature numerous custom touches in the cockpit, including a mister system in the cabin overhang. Twin transom livewells and a wealth of ice storage will be built into three under-deck boxes, including an 800-pound capacity fishbox. And as always with a Jarrett Bay, the 53 will feature the standard package of tackle stowage, cockpit freezer, bait-prep areas, pop-up electronics console on the flying bridge, full exterior teak trim package, and tournament-style rigging. Inside, the 53 features a relatively simple layout with hand-selected, mahogany veneers and trim for the highest quality grain and finish.

Length overall:..... 53'0"
Beam:..... 16'8"
Draft:..... 4'8"
Weight:..... 49,000 lbs.
Fuel capacity:..... 1,100 gal.

Water capacity:..... 125 gal.
Power:..... twin 825-hp MTU Series 60s
..... twin 1,200-hp MTU 8V 2000s
..... twin 1,500-hp MTU 10V 2000s
