

First commissioned in 2002, the 44' Express is a fine example of the high-quality custom sportfishermen that Jarrett Bay has been building for 18 years. Classic Carolina styling with traditional bow flare and a fine entry delivers Jarrett Bay's smooth, dry ride. The 44' is designed to provide a relaxed environment that the whole family can enjoy. The 144-square-foot cockpit is arranged for ease of use. It features a bait prep area, an optional transom fish box, tackle drawers, and a 10-gallon ice box. The helm area offers comfortable seating, which can be enclosed for protection. Extended stays are comfortable due to the V-berth, a head with shower, and a complete galley to port. *Jarrett Bay; (252) 728-2690; jarrettbay.com*
